**Handheld  
Contact**

Handheld Contact puts the ACT! experience on your BlackBerry or Windows Mobile Smartphone to keep you more productive.

- 4 Perform common ACT! functions like scheduling calls, meetings, to-dos with a Contact right from the handheld device - even for another ACT! user. Have your activities, email, phone calls and SMS made from the device recorded in your ACT! history.

Handheld Contact allows you to centrally manage and administer what data is available on each of the remote devices - even allowing for over-the-air installs with Blackberry smartphones. With Handheld Contact's proven wireless communications, your ACT! database and handheld are ALWAYS up-to-date.

ACT! BY SAGE  
**20**<sup>th</sup>
